

# HNC in Early Childhood Education and Care

The Higher National Certificate (HNC) in Early Childhood Education and Care is a comprehensive program designed to help you achieve your career goals in childcare and education. Follow this presentation for a brief overview of the course, our school and next steps!

# Course Overview

## Flexible Learning Paths

From modules in Child Development to safeguarding practices, our HNC in Early Childhood Education and Care exposes you to the totality of Childcare and Education curriculum.

## Work Placement Integration

We encourage practical learning in our curriculum, thus exposing you to real-world experiences by attaching you to daycares, nurseries and kindergartens by the 2nd semester of your schooling.

## Team-Based Learning Practices

The course encourages group learning and project collaboration structure that helps you elevate your skills whilst working in teams for a long-term career in childcare education.

# Modules and Curriculum

## Child Development

Foundation on how children acquire language and communication skills.

## Supporting Early Learning and Development

You will learn how to facilitate Early Learning and Development of children.

## Safeguarding of Children and Young People

Protection of vulnerable children from any harm or abuse.

## ...and more!

The course offers more such modules including Health and Nutrition, Play and Learning, and Supervisory Skills.

# Skills and Knowledge Gained

- Children's rights, protection, and welfare.
- Language and communication development techniques
- Effective teaching and learning methodologies, especially in early childhood.
- Best practices in early childhood care and education.

# Career Opportunities

## Early Years Practitioner

Apply your knowledge of child development and education by working with young children up until their age of attendance in primary school.

### 1 Creche Manager

Responsible for managing a daycare centre or crèche with a team of early childhood educators, ensuring a safe, nurturing and developmentally sound environment for all children.

### 2 Early Years Practitioner

### 3 Special Educational Needs (SEN) Teacher

Equip differently-abled children with the resources and skills required to attend school.

# Student Support Services

## 1 Tutor Support

Our faculty provides continuous support via online and offline communication channels.

## 2 Library Bulding Access

You have full access to library facilities, including online learning resources, e-books, and journals.

## 3 Extra-Curricular Participation

We strive for a holistic approach to learning, actively engaging and providing opportunities for students outside the classroom in clubs, societies and events.

## 4 Placement Support

Our Placement Team oversees and coordinates all work placements for our Education students.

# Conclusion and Next Steps

## Conclusion

Completing our HNC in Early Childhood Education and Care is the first step to a fulfilling career working with children.
